MITR Learning & Media – Web Developer

📍 Mumbai | 📅 January 17, 2023 – Present

Converted educational PDF templates into HTML format for interactive storybooks.
Ensured cross-browser compatibility and contributed to the UI of the Alef_NCE_MOE project.
Developed and updated layouts using HTML5, CSS3, and JavaScript.

PROJECT HIGHLIGHTS

- **Fort Jadhavgad**

Developed the frontend independently, ensuring the site was phone-responsive and SEO-friendly.

- **Orchid Toyam Hotel**

Implemented front-end design and integrated a booking engine with JavaScript.

- **Awestruck**

Built an e-commerce front-end, integrated Razorpay, and focused on UX/UI design .

- **Orchid Resort Goa**

Designed and implemented the frontend and integrated a booking engine using JavaScript, with a focus on SEO.

- **The Family Farmer, Mangaon**

Developed both frontend and backend for the website. Designed a user-friendly interface and implemented backend functionality using PHP.

- **Ruby Print N Pack | Custom Printing Solutions**

Customized and developed a fully functional WordPress website. Tailored themes, plugins, and layouts.

- **SIWS College**

Collaborated with the college team to upload client-provided data, contributed to UI design improvements, and ensured all requirements were met during on-site visits and coordination with stakeholders.

- **Kolsite**

Independently designed and developed the complete website from scratch within 1.5 months. Managed full content uploading, layout structuring, and end-to-end execution with attention to performance and responsiveness.

- **GEON (Green Energy On)**

Designed and developed several inner page UI layouts. Handled data uploading and ensured consistency in content presentation and branding.
